

WHO WE ARE

Bowline Federal Technologies is an SBA-certified Service-Disabled Veteran-Owned Small Business delivering federal information technology services from the Atlanta metropolitan area. The firm provides cloud architecture, cybersecurity engineering, systems integration, and program management to federal, state, and local government. Every engagement is led directly by its principal, with accountability for the outcome held by the person doing the work.

CORE COMPETENCIES

Cloud & Infrastructure

- Landing zone architecture
- AWS and Azure migration
- FedRAMP-aligned design
- Containerization and IaC
- CI/CD with security gates
- Cost governance and tagging

Security & Compliance

- NIST 800-53 and RMF
- Security control implementation
- ATO and authorization support
- Zero Trust architecture
- Continuous monitoring
- Incident response readiness

Delivery & Modernization

- PMP-led program management
- Systems and API integration
- Custom software (508 / WCAG)
- Legacy re-platforming
- ITIL 4 service management
- IT strategy and roadmaps

PRINCIPAL EXPERIENCE

Alex R. Henry, Founder & Principal · Service-Disabled Veteran, U.S. Marine Corps

- At a major U.S. airline, consolidated a fragmented estate of customer notification systems into a single enterprise communications platform. Callbacks into customer service fell by more than 80 percent.
- Led the same carrier's move of six mission-critical applications into the cloud, reducing its dependency on legacy infrastructure and improving resilience across the estate.
- Ran a 72-person engineering organization spread across three countries, holding cost, quality, and a 92 percent on-time delivery rate together across fourteen business applications.
- Sixteen years in the Marine Corps directing enterprise IT strategy and modernization, where availability was a readiness question and systems held at 99 percent uptime.

Newly formed entity. Past performance above reflects the individual professional experience of the principal, not corporate contract history.

WHY BOWLINE FEDERAL

- **Certified and award-ready:** SBA-certified SDVOSB with active SAM.gov registration, UEI, and CAGE. Eligible for set-aside award today.
- **Two decades of enterprise depth:** 20+ years architecting, securing, and delivering enterprise technology across defense, aviation, and software.
- **Business-credentialed leadership:** Engineering judgment paired with an MBV from USC Marshall. Work is scoped against mission outcome, cost, and risk.
- **Southeast federal proximity:** Atlanta metro base near CDC, IRS, EPA Region 4, the Atlanta VA, Robins AFB, and Fort Moore. On-site capable without national-firm overhead.
- **Direct principal accountability:** You work with the practitioner responsible for delivery, not an account manager or a junior bench.
